Dear Sir or Madam:

I am contacting you in an effort to explore matching my extensive record as a Commercial Project Superintendent with opportunities in your organization. I have enclosed a brief resume for your review. I have experienced working Big Box Retail, Office/Retail commercial projects, hospital, educations schools and tilt wall warehouse complexes.

As you will see from my experience and accomplishments. I have a proven record of proven performance including completing projects ahead of schedule and developing/maintaining excellent relations with owners, owner representatives, engineers, architects, and subcontractors. Through each of my positions, I have fine tuned many of my skills that make me an excellent candidate for your consideration. I have attached my references, as well as projects that I have taken to task for you can contact from owners and managers who can attest to my excellent management, leadership and problem solving skills.

I look forward to meeting with you to discuss specific aspects of my background that are of interest to you. I am available for immediate employment and can meet you at your earliest convenience. Please feel free to contact me at the above address, phone number or email address to make arrangements for an interview.

Thank you for your time and consideration of my request and qualifications. I will be looking forward to hear back from your company.

Sincerely,

Ronald G. Reese

RON REESE

SUMMARY OF EXPERIENCE

From nuclear power plants to office and retail build outs to commercial warehouse projects, including educational/vocational school, and out of ground projects. My successful experience is second to none. Having started at the bottom and worked my way up I have hands on experience in every position imaginable on a job site and have interacted with Sub-contractors, Architects, Engineers, Clients and workers to see that jobs were done on-time, profitably, accurately and smoothly across the country. Driven to make expert decisions based on experience I am very detail oriented and can be relied on to quickly resolve critical issues at every stage of your project. You will find me outgoing, social and ready to share a good sense of humor. Ready to bring my proactive, hands on style to your building projects.

KEY SKILLS

Construction	Project Management	Plant Design and Construction
Multi-site Operations	Budget Control	Field Installations Management
Customer Relations Management	Asset Assembly	Conceptual Design
