## Apprenticeship: Electrician

Contractors  
APPRENTICESHIP TRUST

## Is Electrical For You?

If you're into sound systems, robotics or tinkering with wires, you should think about a career as an electrician. Electricians install and maintain all of the electrical and power systems for our homes, businesses and factories. Electricians in large factories usually do maintenance work that is more complex. These kinds of electricians may repair motors, transformers, generators and electronic controllers on machine tools and industrial robots. They also advise management as to whether the continued operation of certain equipment could be hazardous.

## Average Salaries\*

\$67,269

annually

\$30.87 per Hour

\*Base salary does not include overtime or incentives

# Program Overview

## Foundations for your Career

CORE program  
(Basic Safety, Hand/Power Tools,
