## Is Pipefitting For You?

Are you a little bit of a perfectionist? Do you enjoy reading plans and making something useful? Consider training to become a pipefitter. Pipefitters plan and install detailed pipe systems for commercial and industrial projects. These pipes may carry water, chemicals or gases to the crucial building systems. Pipefitters use many tools to cut and bend pipes to exact specifications.

## Average Salaries\*

\$62,697

annually

\$30.18 per Hour

\*Average base salary does not include overtime or incentives

# Program Overview

## Foundations for your Career
